Evansville, IN 47708

Request for Change to Permit Application

In order for the Vanderburgh County Health Department to change the permit for your proposed private sewage disposal system this letter must be read, signed by the home owner and returned.

*With my signature below, I am requesting a reduction in the size of the private sewage disposal for the dwelling located at _____ . I understand that the size of the system is tailored to the number of bedrooms and bedroom equivalents in the home and Jetted tubs >125 gallons and that it would be a violation of State Code 410 IAC 6-8.1 and Vanderburgh County Code 8.20.020 to install an undersized system for this home I understand these violations carry a penalty of 2500.00 for each day the violation exists. **I understand that a bedroom equivalent is defined as any room equal to or greater than 45 square feet, with a closet and a window or door for emergency egress.** I understand that the Vanderburgh County Health Department will label this system as "unapproved" if the size of the system does not match the number of bedrooms/bedroom equivalents/jetted tubs in the home, which may prevent a certificate of occupancy from being issued.*

Also with my signature, I am agreeing not to construct or remodel this home to have a capacity greater than _____ bedrooms/jetted tubs without increasing the size of the sewage disposal system. Nor I will represent the home as having more than the indicated number of bedrooms/jetted tubs above should I sell the home.

Name _____
(please print)

Signature _____

Date ____/____/____

When the Health Department receives this form with your original signature affixed, your private sewage disposal permit will be altered to represent your requested changes.
